

Patio Heater Assembly & Use Manual

PATIO HEATER ASSEMBLY & USE GUIDE - BONFIRE SUPPLY

SAFETY GUIDELINES:

- Outdoor use only. Do not operate in enclosed or covered areas.
- Keep at least 3 meters away from walls, structures, or combustibles.
- Do not operate during high winds or while unattended.
- Only use CSA-approved propane cylinders and regulator assemblies.

ASSEMBLY:

- Follow manufacturer instructions step by step.
- Tighten all bolts and fittings securely.
- Perform leak test using soapy water solution before first use.

OPERATION:

- Open propane valve slowly.
- Ignite according to instructions (usually push-button ignition).
- Adjust flame to minimum safe setting.
- Do not cover the burner or reflector while in use.

MAINTENANCE:

- Turn off propane and allow heater to cool before moving or cleaning.
- Clean burner ports and air vents regularly.
- Inspect for rust, wear, or loose fittings monthly.

Improper use voids any warranty and may cause serious harm.
