

## Glass Fireplace Doors Info –

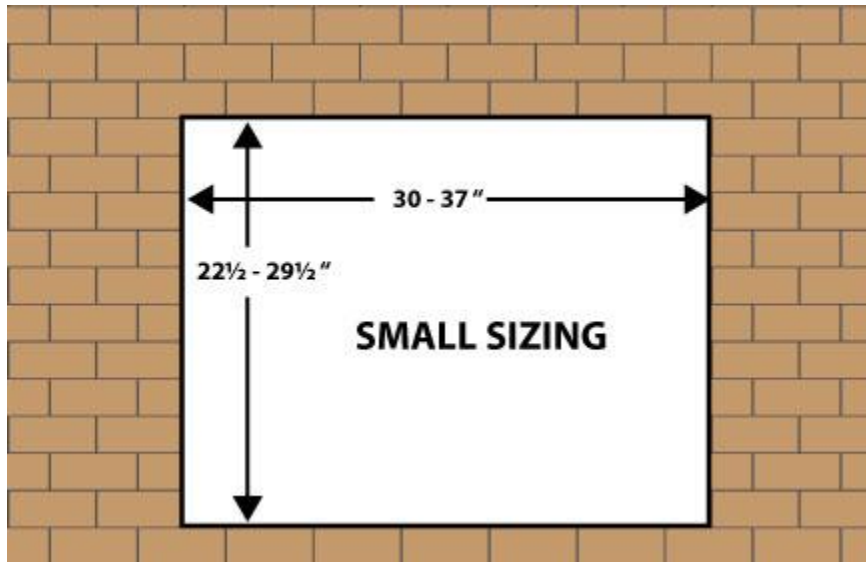

Fireplaces come in various sizes and shapes and Pleasant Hearth Fireplace Doors have you covered! They offer 3 different sizes across the fireplace door range, which cover the majority of fireplaces in your homes. We made this guide to makes it easier for you to choose the correct size for your fireplace.

### **Before you purchase your fireplace door:**

1. Make sure you measure the inside width of the fireplace opening. A good idea to check the top and bottom width of the fireplace as you might find that the top is wider than the bottom or visa-versa. If there is a difference in size take the larger measurement.
2. Measure the height of the fireplace opening. So this would be from the bottom to the top of the fireplace opening. Like the width measurement, it's a good idea to measure both sides of the fireplace in case there's a slight difference in measurement.
3. Always **double-check** the measurements you've written down! It's never fun when you get your fireplace door delivered, only to find it doesn't fit.

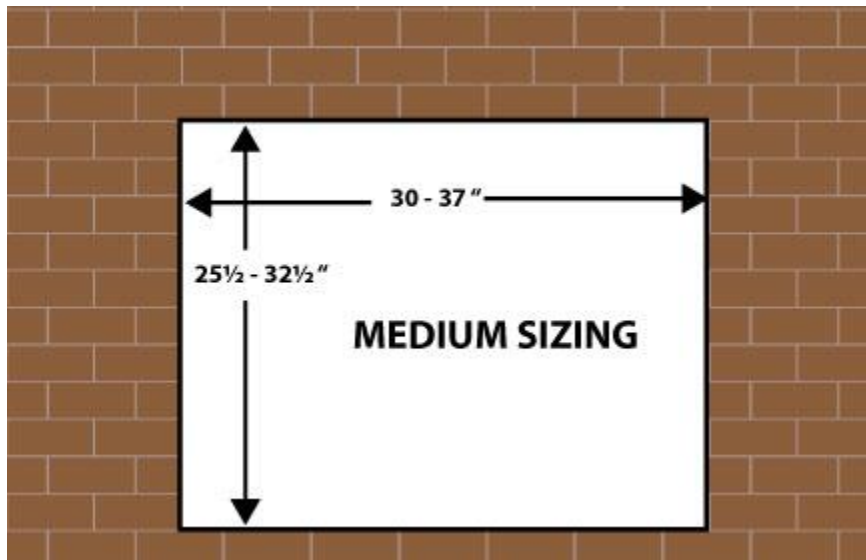

Size	Fits Opening Width	Fits Opening Height
Small	30" ~ 37"	22 ½" ~ 27 ½"
Medium	30" ~ 37"	25 ½" ~ 32 ½"
Large	36" ~ 43"	25 ½" ~ 32 ½"

### Small Size:

The smallest of the Pleasant Hearth fireplace door range, suitable for the smaller sized fireplaces.

### Medium Size:

These medium sized fireplace doors come in the same width as the small size, but with the higher frame size it's suitable for those fireplaces that are that little bit higher, in the range of 25½~ 32½\".

Large Size:
